

## Energy Companies Information

<https://www.powerswitch.org.nz/>

<http://www.switchme.co.nz/>

<https://www.glimp.co.nz/>

You could easily use the websites above to compare energy prices.

Before you settle with any energy company, Please try at least 2 companies with open contracts to understand more about their pricing, service, speed, billing system etc.

The following tables are price comparisons to help you choose what's right for you:

Notes:

- 1, Pricing might be different with various areas;
- 2, Prices below are GST exclusive;
- 3, Before you switch your power, please figure out if they provide other bundle products that you need as well;
- 4, This survey is done by 27th July 2021, prices are subject to change;
- 5, Figures in blue are the amount you might switch between low using plan with standard plan;
- 6, If you chose "Contact" as your provider, fill in promo code "FRVR2QR" will gain \$100.00 (\$86.97 after tax) credit for both of us in the following 2 months.

**Very hard to find their pricing from their website. But they are considered to be the most expensive company.**

**Electricity-Piped Natural Gas-Bottled Gas**

<https://www.justenergy.co.nz/>

- You will expect talk to a digital employee online firstly LOL
- LPG bottles could be delivered in 7 working days or 48hours for an extra charge of \$90-190.

Personally, I won't suggest this company since it is also very hard to find their pricing from the website. Normally it means expensive pricing.
